Produced in the Netherlands since 1926

Innovative designs

Custom made wallpaper

RIVIÈRA MAISON

We are entering a new decade of wallpaper; soft touches and natural shapes are setting the tone. Inspiration is like always coming from traveling around the globe. You can see a few influences of Indonesia like the Jepara wallpaper which is actually a rattan weave technic. Or a beautiful leave pattern inspired by the thick forests around Ubud.

If you look at these wallpapers you can hear the jungle and a running waterfall. A paneled wall in a restaurant in the French concession in Shanghai is converted into a striking wallpaper.

Setting the tone in either a private home or restaurant is so easy when wallpapering your wall. We have also a collection of new digital prints in this book. Use them wall to wall for a mouthwatering effect.

— NICO TIJSEN
Creative Director Rivièra Maison
